What to expect from this session?

In this track, we will discuss updating an on premise version of DV Server

- For the SAAS versions of DV Platform and DV Pipes Pro, we will take care
- Our support team helps with updates / upgrades
- We will go through the upgrade guide and perform an update live
- All steps will be explained

How the update works

How the update works

- Current server configuration will be exported
- New server will be downloaded and installed
- Configuration will be imported on the new server
- Upgrade guide: <https://documentation.datavirtuality.com/24/upgrade-guide>

Demo: Live update
